CALL FOR TEACHERS

Dive into Learning with us!
Become a DIVE Teacher and explore inclusive STEAM through underwater robotics.

Are you a secondary school teacher interested in **STEAM, robotics, hands-on learning and inclusive education**? The **DIVE into Learning** project is looking for enthusiastic teachers to join our international educators' community and help bring a new approach to the classroom.

What will participating teachers do?

1) Participate in an international training

Selected teachers will take part in **two international training events, delivered in English**, with online preparation beforehand:

📍 **Las Palmas de Gran Canaria, Spain — 25th, 26th and 27th February 2027**
Explore the DIVE methodology, educational resources and hands-on underwater robotics activities.

📍 **Madeira, Portugal — June 2027 (2 days)**
Share your classroom experience, results and feedback, exchange good practices with other teachers, and contribute to improving the DIVE resources.

Travel, accommodation and other eligible participation costs will be covered by the project.

Between the two training events, the teachers participating will:

- Pilot the DIVE methodology (Curriculum) in their school.
- **Implement 8 Lesson Plans with their students.**
- Complete pre- and post-pilot surveys.
- Collect feedback and implementation data.
- Share their experiences, challenges and successes with the DIVE team.

The resources will be tested and refined based on teachers' and students' real classroom experiences, helping create practical resources that can be used by educators across Europe.

2) Become a DIVE Trainer

Your journey with DIVE doesn't end with the pilot!

During the **2027/2028 academic year**, participating teachers will have the opportunity to become **DIVE Trainers** and share the project's approach with other teachers in their country. DIVE Trainers will:

- Deliver **online and face-to-face training** for other teachers.
- Introduce the DIVE methodology and resources in their **national/local language**.
- Share their own classroom experiences and good practices.
- Support other teachers in implementing inclusive STEAM activities.
- Contribute to the development of a European community of educators.

Co-funded by the European Union

This project has been funded with support from the European Commission. This project reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein. Ref: 2025-1-ES01-KA220-SCH-000362891

Application and Selection Process

There are **4 places available in each participating location**:

- 🇪🇸 Catalonia — 4 teachers
- 🇪🇸 Canary Islands — 4 teachers
- 🇵🇹 Madeira — 4 teachers
- 🇬🇷 Greece — 4 teachers

Teachers interested in joining DIVE into Learning should complete the **online application survey**. The survey will help us understand your experience, motivation and availability to participate in the project.

Applications will be assessed based on the following criteria:

- **English language level**, as the international training activities will be delivered in English.
- **Commitment and availability** to participate in the online preparation sessions and both international training events.
- **Commitment to become a DIVE Trainer** and deliver training to other teachers during the 2027/2028 academic year.
- **STEAM teaching experience or subjects taught**, particularly experience relevant to the DIVE project.
- **Motivation and interest in the project**, explained through an open-ended question.

Based on the survey results and the available places, shortlisted candidates will be invited to a **short online interview**. The interview will give applicants the opportunity to tell us more about their motivation, experience and commitment to DIVE.

Following the interviews, **4 teachers will be selected in each location** to join the DIVE teacher group.

We are looking for teachers who are not only interested in trying something new, but who are ready to **DIVE in, pilot the approach, share their experience and become trainers for other teachers.**

Apply by: 30/10/2026
